11 Complaints: 1995 Honda Accord Electrical System Problems

1995 honda accord. Car won't start, will crank, all fuses are good, distributor cap was clean new plug wires. The car wont go into gear, I must put the key into the hole by the gear shift, to move to neutral. Brakes are acting as if in manual /no power even in neutral and will not start. This is the second time this has happened.

1995 honda accord. Car won't start, will crank, all fuses ...

Check for poor connections at the battery or a problem relay if your Honda Accord is sluggish about starting. The starter is your car's biggest electrical component. Unless your car is several years old, the problem may exist in the connections, solenoid or key switch. The starter in an older Accord may just be worn out and need replacing.
