Scheduled conferences include case reviews, didactic neurocritical care lectures, Status Epilepticus and Long-Term Monitoring Rounds Conference and grand rounds. Finally, we strive to create a positive working environment both inside and outside the hospital to help our fellows learn as much as they can while enjoying their time here with us.

Neurology - Neurocritical Care

Abstract. Neurocritical care depends, in part, on careful patient monitoring but as yet there are little data on what processes are the most important to monitor, how these should be monitored, and whether monitoring these processes is cost-effective and impacts outcome. At the same time, bioinformatics is a rapidly emerging field in critical care but as yet there is little agreement or standardization on what information is important and how it should be displayed and analyzed.
