wanting extra challenges.

...  
Crossing the River with Dogs: Problem Solving for College Students has been adapted from the popular high school text to provide an accessible and coherent college-level course in mathematical problem solving for adults. Focusing entirely on problem solving and using issues relevant to college students for examples, the authors continue their approach of explaining classic as well as non-traditional strategies through dialogs among fictitious students.

### **Crossing the River with Dogs: Problem Solving for College**

...  
A lot of people would agree on the fact that life is full of challenges. People become proficient enough when it comes to catering small problems or issues in hand. However, those who attain exceptional insights into problem-solving can gain success in the long run. Problem-solving can enable anybody to gain an edge over their peers and achieve more. The bigger the problem, the difference is ...

### **5 Problem Solving Strategies to Become a Better Problem**

...  
A first step to a solution would be to use logical reasoning. The sum of the numbers in all nine cells would be  $1+2+3+7+8+9=45$ : If each row has to have the same sum, then each row must have a sum of  $45 \div 3 = 15$ . The next step might be to determine which number should be placed in the center cell.
